## OUR FOUNDER

CEY Investments CC was founded by Yogan and Carmel Moodley on the 20th of August 1996 and presently occupies a premises on 789 Sunset Avenue, Woodhurst Industrial, Durban.

Yogan Moodley has over forty years of experience in the fasteners industry and has established and maintained excellent relationships within the industry.

He prides himself on manufacturing quality products with superior machines at competitive prices. Our professional staff are qualified and highly skilled to safely deliver excellent customer service and quality products.

## OUR FOUR DIVISIONS

We aim to deliver excellent service to our customers with a committed staff, innovative resources and superior machinery. Our business functions around four main divisions:

- Manufacture and distribution of plastic spacers for construction
- Manufacture and distribution of fasteners
- A 24-hour engineering shop available for thread rolling (M6 to M36) and special manufacturing according to drawings
- Hot forging - manufacturing of large diameter bolts

Our vision is to continue to provide world-class products to the South African market and become the leading product supplier in the industry within Africa.

Our mission with the combination of our committed staff and innovative resources helps to ensure we deliver excellent service to our customers.

## FORGING & ENGINEERING

CEY Investments CC trading as Nikkeibolt is a BBBEE certified level one 100% black-owned company with 50% women ownership.

We manufacture Stainless Steel (304, 316, SAF 2205 and 904L), Mild Steel, High Tensile bolts, U bolts, Foundation bolts, Hook & Channel bolts, Friction Grip bolts, Engineering Studs and B7 Studs Hot Dip Galvanised in Southern Africa which conforms to international standards.

Since our inception in 1996, we have forged ahead to become a 'one-stop solution provider'. Our workmanship exemplifies high quality, a quest for perfection and an innovative approach.

We are also members of the South African Stainless Steel Development Association (SASSDA).

We have an active social responsibility programme in place, as we believe we must give back to the community.
